A sincere Village of Aspers, Adams County, Pennsylvania welcome! While many folks have never heard of Aspers, Pa., we here at the Aspers Fire Company & EMS Services have been working day and night to protect the rural communities we serve, and we are most grateful for the financial support we have received via our various fundraising efforts that are becoming recognized across the great country of United States of America. We are adding new meaning to the word "Bingo" and our "Raffles" are known to many across the US.

Many small rural volunteer fire companies have disappeared due to lack of community support, however, and we have rightfully earned our motto: "against all odds! ", and we will never ever give up our efforts to provide our rural Adams County communities the fire protection and EMS services that they are entitled to receive.
